PREFACE

The first edition of Class C, Auxiliary Sciences of History, was published in 1915, the second in 1947, the third in 1974, and the fourth in 1993. This 1996 edition has been produced using a new automated system developed at the Library of Congress for this purpose. The system will allow for the production of new editions on a regular and frequent basis.

In 1992, Rebecca Guenther, Network Development and MARC Standards Office, began overseeing the conversion of Library of Congress Classification data to machine-readable form using the provisionally approved USMARC format for classification data. In 1993-1994, the Cataloging Distribution Service developed programs for producing printed classification schedules from the MARC records in cooperation with Lawrence Buzard, editor of classification schedules, Paul Weiss, senior cataloging policy specialist, and Rebecca Guenther. The Cataloging Distribution Service also coordinated the layout and design of the new schedules.

The classification data were converted to the MARC format largely without editing or revision. As a result, this new edition of Class C is for the most part a cumulation of existing data rather than a wholly revised edition. Mary K.D. Pietris, senior cataloging policy specialist, and Lawrence Buzard proofread the converted data and edited the index.

New or revised numbers and captions are added to the L.C. Classification schedules as a result of development proposals made by the cataloging staff of the Library of Congress and cooperating institutions. Upon approval of these proposals by the weekly editorial meeting of the Cataloging Policy and Support Office, new classification records are created or existing records are revised in the master classification database. The Classification Editorial Team, consisting of Lawrence Buzard, editor, and Barry Bellinger, Kent Griffiths, Nancy Jones, and Dorothy Thomas, assistant editors, is responsible for creating new classification records, maintaining the master database, and creating index terms for the captions.
